

WESTVIEW BAPTIST CHURCH^{of London}
1000 Wonderland Road South, London, ON N6K 3S4

March 3, 2021

Hello Westview Family,

I am so glad that God's plan for his kingdom doesn't depend on things always going smoothly. God is at work, and the narrative of Westview over the last year shows that. In spite of the many challenges that we, and the rest of the world, faced, God still worked through our ministry here at Westview. It certainly looked different than it had in the past, but this year has pushed us and helped us to "think outside the box" of what we traditionally have thought of as "church". I think, more than ever, we have seen that we are the church whether we are together physically or apart. I am grateful for the innovation of our leaders throughout this year. Thank you to the people who have faithfully served. The enclosed 2020 Annual Report demonstrates how God continues to work.

We will continue to have to innovate in the coming weeks and months, especially when it comes to communication and conducting the business of the church. In life, I often find myself in the tension of "faith" and "reality". I am a pragmatic and practical person by nature, but my faith in the impossible is sometimes in tension with that. So when I say that I have faith that we will meet again to conduct the business of the church, I do so with the realism of the "not yet" statement. We ask that you continue to have patience. We will be able to meet again in numbers that will enable a solid quorum, but it will take some more time. We will keep communicating with you in the meantime.

If you have questions after reading the Report, you are welcome to contact the person who wrote a particular report or to contact the Church Office.

As Isaiah 40:31 says,

"but they who wait for [or hope in] the Lord shall renew their strength,
they shall mount up with wings like eagles,
they shall run and not be weary,
they shall walk and not faint."

Taking heart, and trusting Him, in His Service,

Elisabeth Pellmann Webb
